DETAILED ACTION

EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

At p. 6, line 10 of the specification, [In the drawings:] was replaced with ---**Brief Description of the Drawings**---

Allowable Subject Matter

2. Claims 1-8 are allowed.
3. The following is an examiner's statement of reasons for allowance: The closest prior art of record is WO 97/13719. The reference discloses a process for separating and recovering hydrogen fluoride from a mixture of an organic compound and hydrogen fluoride which comprises contacting the mixture in the liquid phase with a solution of an alkali metal fluoride in hydrogen fluoride, separating an organic phase and a hydrogen fluoride phase and recovering hydrogen fluoride from the hydrogen fluoride phase (p. 2, top). The reference further discloses that the recovered hydrogen fluoride may be recycled, and that additional hydrogen fluoride can be separated from the organic phase via distillation and recycled. The organic liquid may be HFC 227ea made from

hexafluoropropene. Applicant's claims appear to be of "comprising" scope, allowing for the introduction of an additional step, addition of the alkali metal fluoride solution.

However, the claims recite that the reaction mixture of HFP and hydrogen fluoride is charged to the phase separator. The reference only teaches addition of alkali metal fluoride to the reaction mixture *prior to* phase separation. As taught in the prior art, it is not the *reaction mixture* which is being introduced into the phase separator, but a combination of the reaction mixture and other materials. The claims would allow the combination of alkali metal fluoride to the reaction mixture once the reaction mixture had been charged to the phase separator, but this is not what the reference discloses.

Accordingly, the claims are allowable over the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

4. Any prior art made of record and not relied upon is of interest and is considered pertinent to applicant's disclosure.
5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to the examiner, Dr. John R. Hardee, whose telephone number is (571) 272-1318. The examiner can normally be reached on Monday through Friday from 8:00 until 4:30. In the event that the examiner is not available, his
